1. Organisation Overview.

- **Name by :** Luxury designs

- **Brief history of the organisation.**

Luxury design is an online retail store specialising in premium fashion items including designer - Inspired clothing handbags jewellery and accessories founded and accessories. The idea behind the store is simple : it is to give people access to stylish high quality fashion without needing to visit a physical shop .

- **Mission and vision.**

To offer customers a smooth high-end online shopping experience built on quality and style.

Vision

- To become one of south africa 's go to online stores to affordable luxury fashion.

Target audience

- Fashion conscious man and women aged 20 -45 who enjoy shopping online and want to look good without paying full designer prices .

2. Website goals and objectives.

The primary goal is to have an attractive conversion focused website that drives online enquiries for custom products .

The main goals for this website are to :

- Grow online sales
- Build a strong trustworthy , brand image
- Make it easy for customers browse and buy products.
- Build brand credibility and support the transition to a physical retail location.

Objectives

- Display products clearly with images , names and prices .
- Provide an easy to use navigation menu (Home ,about , products, enquiry,contact).
- Show multiple store locations and contact details for customer convenience.
- Use a clean professional design that reflects quality style.

Key performance indicators (kPIs)

- Number of products enquiries form submissions per month .
- Organic website traffic from google searches (tracked via google analytics).
- Bounce rate (target below indicating engaging content.

3 .Current website analysis.

- Luxury design operates by ensuring that it works well and also learning that it works well on other successful online fashion stores , and avoiding common mistake messy layouts, slow loading pages ,or confusing pages and Tabs
- Luxury design The Luxury Designs website has a solid foundation with all the required pages (Home, About, Products, Enquiry, and Contact). It successfully covers the main goals of showcasing products and allowing customer enquiries. With improved visual design and more detailed product content, the website can better reflect the “affordable luxury” brand and attract more customers.

4 .Proposed websites, features.

- **Homepage** - eye catching banner featured products a short brand intro and a clear menu.
- **About us** - The story behind the brand plus its story and vision.
- **Products** - Items grouped into categories, each with a photo and a short description .
- **Enquiry**- A simple form so customers can ask about the product.
- **Contact** - store details a contact form and an address for store locations.
